Skills:

- **Programming Languages:** Python, JavaScript (ES6+), TypeScript.
- **Frameworks:** Django, Django REST Framework, Flask, FastAPI, React, Next.js, Express, Node.js.
- **Cloud:** AWS, Microsoft Azure.
- **Database Systems:** PostgreSQL, MySQL, MongoDB, SQLite.
- **Tools and Others:** HTML5, CSS3, jQuery, Jinja, Docker, RabbitMQ, Git, Nginx, Pytest, Jest.
- **Soft Skills:** Communication, Problem-solving, Teamwork, Adaptability, Time management, Critical thinking.

Experience:

Data Annotator (Developer)

May 2024 - Present

Remote

- Evaluated and annotated code samples to improve machine learning model performance in software development tasks such as debugging, refactoring, and optimization.
- Contributed to training datasets used in large-scale AI systems by producing precise, well-documented technical annotations.

Full Stack Developer

May 2022 – June 2023

Tekkon Technologies, Nepal

- Designed and implemented a multi-tenant SaaS HR system using Django, PostgreSQL, and React, supporting 10+ client organizations with customizable themes and dynamic UI components.
- Increased system performance through optimized database queries, Redis-based caching, and backend refactoring across multiple projects.

Full Stack Developer

Jan 2020 – May 2022

Mango Software Solutions, Nepal

- Built a ticketing platform for a bank (serving 3,000+ employees) and an ERP system for a public university using Django, React, and MySQL.
- Developed an e-commerce web app with integrated inventory tracking and multi-gateway payments processing over 1000 transactions monthly.

Education:

Postgraduate Certificate in Cloud Computing Technologies | GPA (3.57)

Jan 2025 – Dec 2025

George Brown College, Toronto, ON

- Worked with Microsoft Azure and AWS to deploy and manage Virtual Machines, set up networking, and explore cloud infrastructure services.
- Used Docker to containerize web applications in lab environments, gaining practical experience in building, running, and troubleshooting containers. Also worked with Microsoft 365 E3/E5 for identity, compliance, and licensing features.

Postgraduate Certificate in Project Management | GPA (3.6)

May 2024 – Dec 2024

Fleming College, Toronto, ON

Bachelor's in Software Engineering

Sept 2016 – Jan 2022

Pokhara University, Nepal
